

Helping to  
**CONSERVE**  
 Energy for you

Cold Storages,  
 PU Pre-Fabricated Houses  
 Refrigerated Containers & Vehicle Bodies  
 Controlled Poultry Farms, Walk-in Cold Rooms, Porta Cabins

[www.arcolite.com](http://www.arcolite.com)

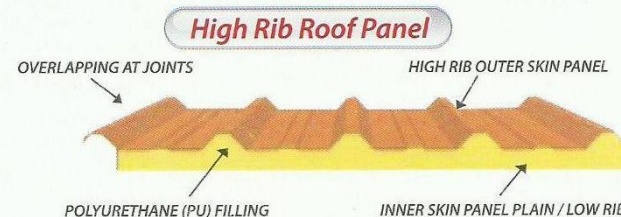

**APPLICATION:**

- Walk-In commercial Cold Rooms
- Warehouse Cold Storages
- Pre-Fabricated PU Insulated Buildings/Houses
- Portable Skid Mounted Cold Rooms
- Refrigerator Vehicle Bodies
- Porta Cabins
- Temperature Controlled Poultry Farms
- Pharmaceutical Industry
- Commercial Showroom and offices

Products

ARCOLITE Panels provide practical & Economical solution when it comes to controlling a certain required temperature. These Panels have maximum thermal and acuaic insulation properties, thus they conserve energy. Extreme and harsh weather conditions, particularly in our part of the world have lately increased the demand of these Sandwch Panels.

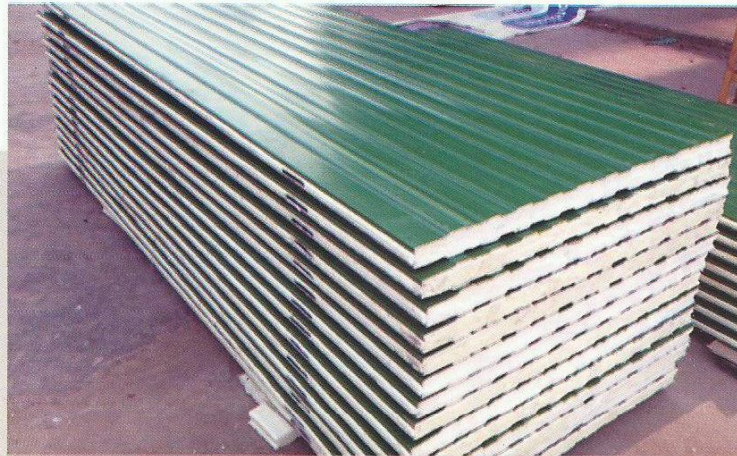

ARCOLITE Panels have a monolithic construction which is farmed as a result of injecting rigid Polyurethane (PU) foam at high pressure and density between metal cladding using computer control injection machines.

### HIGHLIGHTS:

- Excellent thermal Insulating Properties
- Light Weight, High Hardness & strength
- Fast and Easy Installation
- Sound Insulation
- Water Proofing and Damp Proof
- Low Maintenance Cost & Longer Life
- Readily Available
- Manufactured to International Standards
- Earth quake and anti-Cracking resistance
- Fine aesthetic features and easy to clean

Utility

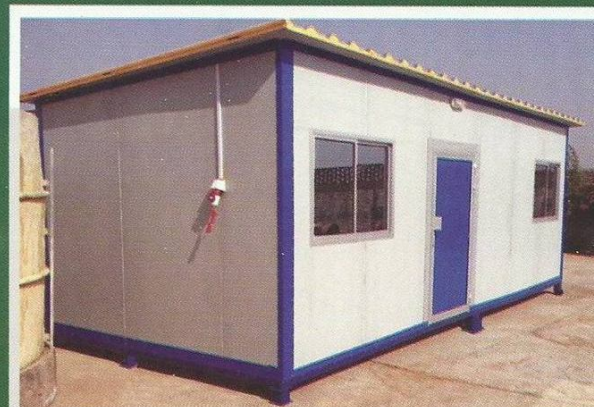

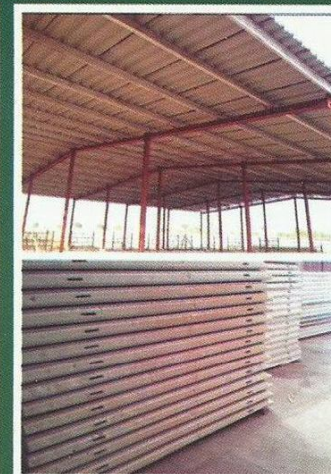

We manufacture Low Rib (Wall) & High Rib (Roof)

- **Stainless Steel Sheet** PU Panels.
- **Pre-Painted G.I. Sheet** PU Panels.
- **Fiberglass Sheet** PU Panels.

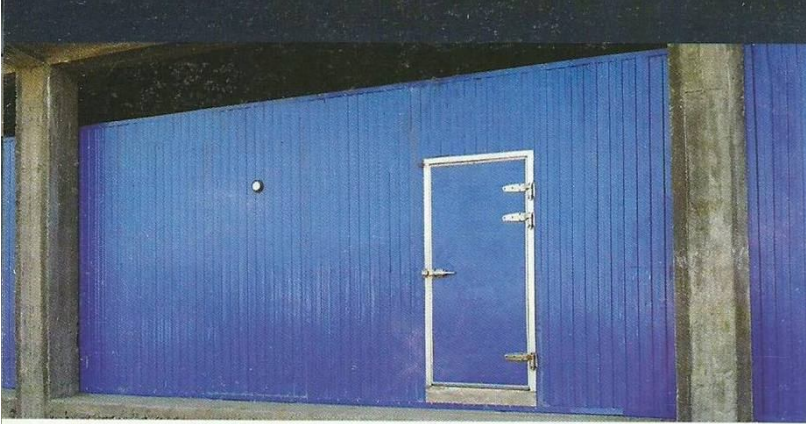

**Max. Panel  
Size  
4' x 40'**

ARCOLITE Panels offer ideal solution for temperature controlled PU Insulated Buildings, Houses & poultry farms.

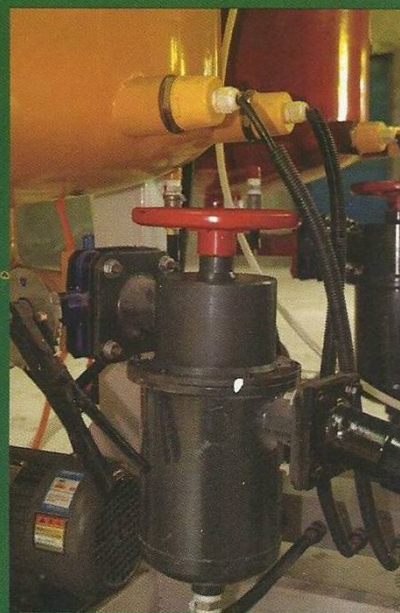

*PU Insulated Sandwich Panel  
Pre Fabricated House*

**-30 °C Cold Storage of 6" Panel in Kabul, Afghanistan**

Computerized PU Injection High Pressure Machine Provides perfect uniformity of quality and density. PLC controlled Roller Sheet Forming Machines are used achieve Precision & Strength, inevitable for Roof & Wall Panels.
